Introduction to Media Suite 9

Welcome to Media Suite 9 – the ultimate All-in-One creativity and entertainment software solution. Media Suite 9 combines twelve different software products to provide all you need to **Play, Create, Share, and Enjoy** your digital lifestyle:

PowerStarter allows quick access to all applications available in Media Suite. Whether it's Music, Movies, Photos, Videos, Data or Copy & Backup, PowerStarter takes you there in an instant.

Key Product Highlights

Blu-ray, HD & Enhanced DVD Playback

- Experience Blu-ray movies with crystal clear images, Dolby Digital and DTS audio.
- Watch Blu-ray, Blu-ray 3D, DVDs, and videos in upscaled HD quality with TrueTheater™ HD

Premium Video Editing Features

- Capture, import, edit, and produce HD video content, including AVCHD, H.264, AVI and many other formats
- Deliver pro-like results with editing tools such as video cropping, reverse video, speed adjustment, and precise Zoom-in Cut™.

Fast Photo Management

- Sort and organize thousands of photos using the face tagging function.
- FaceMe™ Technology identifies and groups similar faces with smart name suggestions.

Data & Backup

- Backup data reliably to any disc including the new BDXL format.

Audio Track Editing

- Trim audio files and apply special built-in or downloaded effects, giving users the freedom to edit tracks.

Ultra Fast Video Conversions

- Optimization for Intel Core i7, AMD Accelerated Parallel Processing and NVIDIA CUDA technology delivers up to 11x faster video conversion.

CyberLink

Media Suite 9

All you need to Play, Create, Share, and Enjoy

Datasheet

- Transfer video files to iTunes library or designated folder, or output to playback devices such as PSP or iPod.

Creative Slideshows

- Use editable slideshow styles to combine videos and photos and add animated text effects and a variety of transitions to create masterful productions.

Sharing Options

- Share videos and slideshows on DirectorZone.com, Facebook and YouTube
- Download 100,000+ FREE video effects and disc menus for video projects.

New and Improved Features

Movies

- NEW** Experience Blu-ray 3D with CPU/GPU acceleration and lossless HD audio
- IMPROVED** Watch Blu-ray movies quicker with up to 4X faster disc loading
- NEW** Convert 2D DVD movies into 3D with TrueTheater™ 3D
- NEW** On screen controller allows users to navigate through Blu-ray pop-up menus
- IMPROVED** Flick through movie chapters and special features with touch enabled FancyView
- NEW** Play MKV, WTV, FLV, 3GP, 3G2 video file formats, and many more
- NEW** Play a large range of subtitle files including smi, ass, ssa, psb, srt, and sub
- NEW** Support for Windows 7 Music Library allows easy creation and organization of playlists
- NEW** Write short comments on movies during playback
- NEW** Share your short comments in real-time on Twitter and Facebook

Live Comments

Loved Lord of the Rings? Saw Harry Potter three times? Have your say RIGHT now!

During the playback of DVD or Blu-ray movies hit pause and enter a short comment (up to 140 characters). Share your comment in real-time on Facebook, Twitter and MoovieLive.com.

PowerDVD 10 makes commenting on movies as easy as watching them.

During the playback of DVD or Blu-ray movies hit pause and enter a short comment then share it in real-time on Facebook, Twitter and MoovieLive.com.

- NEW** Create reviews by bookmarking favorite movie scenes and adding comments
- NEW** Share bookmarked scenes as a MovieMark and upload to MoovieLive.com
- NEW** Let friends know of your new MovieMarks by automatically posting to Facebook

Videos

- IMPROVED** 16 timeline tracks for video editing
- NEW** Video editing particle effects designer
- NEW** Convert video files between a broad range of popular formats

CyberLink

Media Suite 9

All you need to Play, Create, Share, and Enjoy

Datasheet

OPTIMIZED Convert videos ultra fast with optimization for Intel Core i3, i5, i7 - including i7 Extreme Edition (6 cores)

OPTIMIZED Convert videos with NVIDIA CUDA and AMD Graphic Cards

NEW Convert videos in batches

NEW Filter out optical noise in grainy videos with TrueTheater™ Denoise

NEW Adjust the appropriate brightness levels with TrueTheater™ Lighting

NEW Fix the shakiness that often occurs with hand-held shots with TrueTheater™ Stabilizer

Photos

NEW Convert image/photo files between JPEG, PNG, and BMP

NEW Create photo gallery discs

Music

NEW Convert music files between WMA, MP3, and M4A

Data & Backup

NEW BDXL support allows users to burn up to 128GB on a single disc

CyberLink

Media Suite 9

Datasheet

Devices

NEW Transfer all converted files hassle-free to portable devices, such as iPad, iPod, iPhone, iPhone 4, PSP, or Xbox 360

Media Suite 9 – Product Lineup

PowerDVD – Blu-ray, HD and 3D Movie Playback

- Experience Blu-ray with CPU/GPU acceleration and lossless HD audio
- Convert 2D DVD movies and video files into 3D with TrueTheater™ 3D
- Enhance video files during real-time playback with TrueTheater™ Noise Reduction and TrueTheater™ Stabilizer
- TrueTheater™ Surround now applies to music files with support for up to 8-channel speaker systems
- Create movie reviews by bookmarking favorite movie scenes and adding comments

PowerDirector - HD Video Editing (Full Feature Version)

- Capture, import, edit, and produce HD video content, including AVCHD, H.264, AVI and many other formats
- Editing tools such as video cropping, reverse video, speed adjustment, and precise Zoom-in Cut™ deliver pro-like results
- Optimization for Intel Core i7, NVIDIA CUDA and AMD hardware technologies enables faster video production
- New Particle effects designer lets users achieve everything from simple animations to dramatic special effects
- Direct uploading to Facebook and YouTube in HD; output to playback devices such as the iPhone, Zune, and PSP
- Edit then author HD projects onto Blu-ray discs and AVCHD DVDs

MediaEspresso – Ultra Fast Media Conversion for Portable Devices

- Ultra-fast media conversion with support for Intel™ Core i3, i5, and i7, NVIDIA® CUDA™, & AMD Accelerated Parallel Processing technology
- Smart Detect with direct sync to iPhone, iPad, PSP & portable devices
- TrueTheater™ Technology enhances video quality as it converts

CyberLink

Media Suite 9

All you need to Play, Create, Share, and Enjoy

Datasheet

- Converts all media format types – video, photo and music files
- Share videos on YouTube and Facebook, output to mobile devices

Power2Go – Disc Burning

- Supports the latest BDXL disc format that allows you to burn up to 128GB on a single disc
- Burns data, photo, music, videos onto Blu-ray, DVDs and CDs. Also supports mixed media CD burning
- New robust 256-bit encryption and added password reminder provide added data security
- GPU-acceleration supported by AMD Accelerated Parallel Processing and NVIDIA® CUDA™ increases the speed of the encoding and decoding process for video disc burning
- Burn discs easily right on your desktop with Power2Go's new Desktop Gadget. Simply drag & drop the files to the gadget and the Desktop Gadget does the rest

WaveEditor – Audio Editing

- Crop and trim audio files with great precision
- Apply effects to audio files including amplify, reverb, speed and pitch changer
- Download audio from Freesound
- Support for VST plug-ins
- Preview any edits instantly and undo up 10 edits at a time

PowerProducer – Blu-ray and DVD Authoring

- Produce discs from high-definition video, including AVCHD, BD and AVCREC
- Author your videos to Blu-ray Discs (including BDXL format) and DVDs
- Render HD videos up to 5x faster with support for CPU/GPU technology
- Custom design high-def disc menus with imported photos
- Create discs featuring Dolby Digital 5.1 for professional results

PowerBackup – Data Backup

- Archive files, folders and application data
- Backup files to DVDs and Blu-ray discs
- Include or exclude files with advanced filtering
- Schedule automatic backups of important data
- Protect archives with password protection

PowerDVD Copy – DVD Copying

- Make high-quality 1:1 DVD movie backups
- Auto-shrink content to fit 8.5 GB onto a 4.7 GB DVD
- View video content via the Movie Preview window
- Customize disc copies with selectable titles, subtitles, languages and special features

CyberLink

Media Suite 9

All you need to Play, Create, Share, and Enjoy

Datasheet

- Copy using a broad range of burners: DVD-R/RW and DVD+R/RW

MediaShow – Photo Organizer

- Groups photos quickly with highly accurate face detection and recognition technology—up to 95% accuracy
- Apply one-click photo and video fixes in batches to save time
- Convert videos up to 10X faster with optimization for Intel Core i7, NVIDIA CUDA and AMD Accelerated Parallel Processing technology
- Create memorable slideshows containing both video and photo content
- Upload videos to YouTube and Facebook, and photos to Facebook and Flickr

LabelPrint – Label Design

- Create labels, covers and jewel-case inlays
- Burn images onto LightScribe and Labelflash discs
- Auto-import MP3 songs and playlist information
- Choose from high-res images and built-in templates
- Output to a wide range of label templates

InstantBurn – Packet Writing

- Drag and drop burning directly to Blu-ray discs and DVDs
- Rename files, cut, copy and delete as you would files on your hard drive
- Extensive rewritable burner support

PhotoNow! – Fast & Easy Photo Editing

- PhotoNow! offers many features for viewing and fixing photos including zoom, resize, and crop options; photo comparison windows; redeste removal; automatic and manual adjustments; and a variety of special effects.

System Requirements

Operating System	Microsoft Windows 7, Vista, XP
Screen Resolution	1024 x 768, 16bit color or above
Memory	512 MB required (1 GB or above recommended) 2 GB DDR2 or above recommended for editing HD videos
CPU	<ul style="list-style-type: none"> • DVD Quality (MPEG-2) Profiles: Pentium 4 2.2 GHz or AMD Athlon XP 2200+ • High Quality MPEG-4 and Streaming WMV, QuickTime Profiles: Pentium 4 2.4 GHz or AMD Athlon XP 2400+

CyberLink

Media Suite 9

All you need to Play, Create, Share, and Enjoy

Datasheet

- AVCHD and MPEG-2 HD (for BD burning) Profiles: Pentium Core 2 Duo E6400 or Athlon 64 X2 5000+

VGA

Higher than Intel 945 GM, 64 MB-VRAM or above. Some animation effects may be turned off or degraded for lower end graphics system

HDD Space

- 5 GB required (400 MB for SmartSound Quicktrack Library)
- 10 GB (20 GB recommended) required for DVD production
- 60 GB (100 GB recommended) required for BD production

Note: Computers that do not meet the minimum requirements for CyberLink PowerStarter 8, will use a version without background images.

DV

OHCI IEEE 1394 compliant device

Video Capturing Device

- PCI or USB1.0/2.0 capture device compliant with WDM standard (i.e. PC Camera and TV tuner with WDM driver)
- DV camcorder connected via OHCI-compliant IEEE1394*
- DV camcorder connected via USB2.0*
- Sony MicroMV/AVCHD/HDV camcorder*

*Check CyberLink web site for supported model list

Burning

A DVD burner (CD-R/RW, DVD+R/RW or DVD-R/RW) is required to burn VCD/DVD/SVCD/AVCHD titles. A Blu-ray Disc recordable drive is required to burn Blu-ray Disc titles

Internet Connection Some features require Internet access to operate

Additional Hardware Support for Blu-ray™ 3D and TrueTheater™ 3D

HDMI 1.4-capable 3DTV

- Native format: HDMI 1.4 Stereo 3D
- Eye wear: Active shutter glasses
- Supported Hardware:
 - NVIDIA HDMI 1.4 Graphics
 - AMD HDMI 1.4 Graphics

NVIDIA 3D Vision (for Windows 7 only)

- NVIDIA 3D Vision Kit + 3D Vision-Ready Display + 3D Vision Compatible NVIDIA Graphics Card are required
- Please download and install [NVIDIA 3D Vision Driver Full CD v1.29](#)

CyberLink

Media Suite 9

All you need to Play, Create, Share, and Enjoy

Datasheet

120Hz Frame-sequential 3D LCD (NVIDIA 3D Vision-Ready)

- Native format: 120 fps left and right
- Eye wear: Active shutter glasses (NVIDIA 3D Vision Kit)
- Supported Hardware: Asus G51J-SZ028V, Acer GD245HQ, Acer GD235HZ

3D Polarizer LCD

- Native format: row-interleaved
- Eye wear: Polarized glasses
- Supported Hardware: Zalman ZM-M220W, Acer 5738DG (Notebook)

3D Ready HDTV (DLP)

- Native format: checkerboard
- Eye wear: Active shutter glasses
- Supported Hardware: Mitsubishi 1080p DLP HDTV, Samsung 3D Ready DLP HDTV

ABOUT CYBERLINK

CyberLink Corp is the leader and pioneer in enabling digital multimedia on PCs and CE's. Backed by a group of high-caliber software engineers, CyberLink owns its core codec and a number of patented technologies. CyberLink has built a solid reputation for delivering high-quality, interoperable, and fast time-to-market solutions that keep our OEM partners on the leading edge. Our business partners include leaders in the PC industry: drive manufacturers, graphics-card makers, and

CyberLink

Media Suite 9

All you need to Play, Create, Share, and Enjoy

Datasheet

top-5 desktop and notebook brands. Today, CyberLink's software solutions include: complete applications for Blu-ray Discs, Digital Home entertainment, TV-on-PC and human resource development. With customers spanning from multinational corporations to small/medium-sized businesses, and from power users to home users, CyberLink has enjoyed rapid and consistent growth leading to a record breaking IPO in 2000 on the Taiwan Over The Counter Exchange (OTC: 5203). Currently, CyberLink is listed on the Taiwan Stock Exchange (ticker symbol: 5203.TW). CyberLink's worldwide headquarters is located in Taipei. To keep up with market demands, CyberLink has operations in North America, Europe and the Asia Pacific region, including Japan.
