"...PowerDirector has all the speed and all the advanced features an enthusiast video editor could want."

PCMag US, 2010

"PowerDirector...is the fastest consumer editing software we've seen."

PC Pro US, 2010

Reasons to Buy and Upgrade to PowerDirector 10

Award-Winning Performance

- **Faster Rendering with TrueVelocity 2** – Cutting-edge engineering has resulted in a significant speed increase for the world's most effective & powerful video rendering engine – faster, smoother and smarter than ever!
- **OpenCL for Optimal Video Effect Speed** – PowerDirector harnesses the power of your system's GPU and applies it to 48 video effects to greatly improve the speed of the editing process.
- **Intelligent Video Rendering** – Intelligent SVRT does the complex calculations for you by analyzing an entire project to assess the types of media and formats used, selecting the best output profile for optimal quality, then rendering your video in the shortest possible time with patented SVRT technology

Over 2 Million Video Creators

- **Internet's #1 Editing Website** -- Join the increasing number of people editing their videos with PowerDirector and using DirectorZone to share, learn and create with other video editors.
- **200,000+ FREE Effects** -- DirectorZone features uploaded content created by PowerDirector users, including customized effects, templates, tips, tutorials and DVD menus that can be downloaded for free.

300+ Creative Tools

- **Pro-Quality Editing** -- No matter how simple or complex your project is, you can professionally edit your video and audio tracks using a huge variety of tools, transitions and effects all on PowerDirector's flexible 100 track timeline.
- **Powerful Core Tools** -- Crop and rotate videos or precisely trim footage with PowerDirector's Zoom-in Cut™ that lets you edit at levels right down to a single frame.
- **Time Your Editing Perfectly** -- In video editing, precision is everything. Beat Marker analyzes your soundtrack and places markers at major beat points so that you know exactly where to place your transitions and effects, while Keyframe Control lets users edit all their effects in a single setting for perfect synchronization.
- **Professional Effect Plug-ins** -- PowerDirector 10 now supports third-party plug-ins to add even wider choice and luster to your video productions. Includes 10 built-in video effects from integrated effects provider, NewBlue.
- **Animate Your Drawing** -- Hand drawn work can be recorded and then integrated into a video project. Recorded drawings are time-distortable too, so you can slow down or speed up the action. You can even upload your Paint Animations to DirectorZone to share with others.

Minimum System Requirements

Operating System:

Windows 7/Vista/XP (Windows XP Service Pack 2 is required for HDV capture)

Screen Resolution:

1024 x 768, 16-bit color or above

Memory:

512 MB required (3 GB DDR2 or above recommended)

Hard Disk Space:

5 GB minimum

10 GB (20 GB recommended) for DVD production

60 GB (100 GB recommended) for Blu-ray Disc/AVCHD/HD production

CPU

AVI Capture/Production: Pentium 2 450 MHz or AMD Athlon 500 MHz

VCD Quality (MPEG-1) Profiles: Pentium 3 600 MHz or AMD Athlon 700 MHz

DVD Quality (MPEG-2) Profiles: Pentium 4 2.2 GHz or AMD Athlon XP 2200+

High Quality MPEG-4 and WMV, QuickTime Profiles: Pentium 4 3.0 GHz or AMD Athlon 64 X2

Full HD Quality H.264 and MPEG2 Profiles: Intel Core i5/7 or AMD Phenom II X4

Ordering Information

VGA

For Optimized Video Effects Rendering:

NVIDIA GeForce and GeForce Mobile

NVIDIA Quadro and Quadro Mobile

NVIDIA Tesla

AMD Accelerated Parallel Processing

Burning Devices:

A DVD burner (DVD+R/RW or DVD-R/RW) is required to burn DVD titles

A CD (CD-R/RW) is required to burn VCD/SVCD titles

Microphone:

A microphone is required for recording voice-overs.

Internet:

An internet connection is required to access online services.
